Practice limited to diseases of
EYE, EAR, NOSE AND THROAT
Office—ELK'S BUILDING,
STOCKTON, CAL. 1331

DR. HOWARD CAMERON
EYE, EAR, NOSE AND THROAT
ELK'S BUILDING, 24 J STREET
SACRAMENTO, CAL.
Office hours 7:30 to 12 a. m. 2 to 4 p. m.
Other hours and Sunday by appointment. fe

DENTISTS.

DR. JOHN A. DELUCCHI
—DENTIST—
SUTTER CREEK, CAL.
OFFICE HOURS:—From 9 a. m. to 5 p. m.

DR. C. GOLDING
Veterinary Surgeon and Dentist
JACKSON, CAL.
Phone Main 23 ap8

RICHARD WEBB
United States Commissioner
JACKSON, CAL.
Will attend to Homestead and other filings; taking of final proofs and all other Land Business.

WALTER LUCOT
STOCK BROKER
SUTTER CREEK, CAL.

Will buy and sell all kinds of mining stocks and other securities.
Particular attention paid to Amador county mining stocks.
Quotations received daily.

JAS. JAY WRIGHT
Abstract Office
Searcher of Records, Conveyancer, Etc
JACKSON, CAL.
Office—Spagnoli Building, Court House Square.

GO TO THE
AMADOR BAKERY
When You Want Fresh BREAD
A. DAL PORTO & CO. PROP'S.
We also keep a large stock of Staple and Fancy
GROCERIES
Our Specialty—Fresh Bread every day except Sunday
ALL kinds of Breads for U. S. Land Filings—Homestead, Timber and Mineral blanks—may be had at the Ledger office; also deeds, mortgages, mining locations, proof of labor and other legal blanks kept for sale.

JACKSON CITY ITEMS

Local Happenings About Amador's County Seat

Geo. H. Gibson, a painter and paper-hanger from Stockton, who came here to work on the home of Dr. Gall, has decided to remain here, and as result has made arrangements to move his family to Jackson. Mr Gibson has secured a house near the Kennedy flat, where he intends to reside.

Mrs Mattie Freeman, accompanied by her sister Mrs Bishop, both of Oakland, came up last Monday on a visit with relatives in Jackson, and are the guests of Mrs C. D. Peck.

Mrs Henrietta Devan of Camp Seco is visiting her parents, Mr and Mrs Griffin in this city.

E. V. Zumbiel, secretary of the Argonaut company, left Sunday morning for San Francisco, for a few days' vacation.

W. D. Oulds, who has been living in the vicinity of Forest Home for several years, has returned to Jackson, and has accepted a position at the Zeila mine.

George Bishop of Oakland is on a visit, and is staying at C. D. Peck's. In company with Allan Peck he went to lone yesterday to attend the wedding of Miss Florence Taylor.

Mrs Rae Thomas, wife of W. S. Thomas of the Ledger office, with four year old son, arrived in Jackson from Chicago on Tuesday last, and will make her future home in this city.

Miss Louise Maghew, Mrs Vislich and Miss Violet Pears, who were the guests of Mrs Chas Ginocchio, left for their homes in Stockton Tuesday last. They had been visiting in Jackson about week, and took in the lone picnic held last Saturday.

Frank Vogeli has occupied his new place of business, which has just been remodeled on Main street. The new store room is modern in all its fixtures, and is a great credit to the business district.

William Stark, had the misfortune to get his foot caught in a large water wheel at the Argonaut mine, last Sunday afternoon. The instep of the left foot was crushed, and an artery severed. Dr. Gall was summoned, and rendered professional services. Stark lives at Jackson Gate, and will be off duty for some time. The doctor reports his patient doing finely.

Dave Oneto had his left foot badly crushed by a heavy log falling on it. Oneto resides near Clinton, and has been handling logs from that town to the Zeila mine.

R. S. Rainsford, superintendent and E. V. Zumbiel, secretary of the Argonaut Company, returned Wednesday evening from a short business trip to San Francisco.

Road and state poll taxes are now due and payable to the assessor, and will be delinquent in August. Pay up and avoid the penalty.

Electric hose lasts longer than any other brand. For sale at Weller's hardware store. rf

Continued on Page 5

Sane Fourth Is Official Order

We are authorized to state, that the ordinance prohibiting all kinds of fireworks and explosives within the city limits will be strictly enforced on the 4th of July. There will be no suspension of the law, so as to enable dealers to dispose of their stock, and the small boys to get rid of a lot of noisy patriotism, as has been done in past years. This notice is published weeks in advance, so that those who have been accustomed to dealing in such goods may govern themselves accordingly. We are sure every property holder in this city will be gratified to hear of this good resolution. Every fourth of July, with its outrageous demonstration in explosives by boys and grown ups, has been a menace, and those having their all at stake have felt a relief when the day has passed without serious damage from fire. The gunpowder plot will not be tolerated this year. Anyone indulging in the prohibited pastime within the boundaries of Jackson will be promptly landed in the calaboose.

Delegates Elected.

At the last meeting of Ursula parlor of Native Daughters delegates to the grand parlor, which assemblies in Santa Barbara in June, were elected as follows: Flora Gilbert, Nellie Ginocchio and Lena Bergin. Alternates, Mary Going, Flora Podesta and Nellie Fontenrose.

DITCH TENDER FOUND DEAD

Tobia Ferrasci Discovered In Canal Above Petty Reservoir

Tobia Ferrasci, ditch tender for the Pacific Gas and Electric Corporation, whose boat extended above the Petty reservoir for several miles, was found dead in the canal, at a point about a quarter of a mile above the Petty reservoir, about 7 o'clock Monday morning, under circumstances that left no room to doubt that he met his untimely end by accidental falling into the ditch.

About three years ago a terrible calamity befell the Ferrasci family, all the members of the family then seven in number being seized with mysterious sickness after partaking of some home preserved beans. The sickness was diagnosed as ptomain poisoning, caused by the beans. Ferrasci alone escaped severe sickness, he having partaken of the meal very sparingly. Four of the family—Mrs Ferrasci and two children, a boy and a girl, and also a niece, Miss Amelia Cattini, died. Mrs Canonica, a neighbor, partook of the fatal dish, and also perished, making five victims. One other child, belonging to Mrs Canonica, lived through the ordeal, after a desperate struggle with the strange malady. The tragedy left Ferrasci and three children constituting the family. After this calamity Ferrasci deemed it advisable to leave the place associated in his mind with such awful memories. He went to Reno, but afterwards came back to California, finding employment in Butte county. About one year ago he returned to Amador, and resumed his position as ditch tender on his old beat above Clinton, the family occupying the same premises as formerly, the oldest daughter—a girl of about twenty years, having charge of the household and looking after her two sisters, aged about nine and six years.

Services at the Episcopal Church

Rev. John T. Shurtleff, preached a very interesting sermon at the Episcopal church, Jackson last Sunday morning. The subject was taken from the 34th chapter of Genesis and the 27th verse: "While I was in the way the Lord led me." The text was composed with the life of Elisur, the stuart of Damascus, and that of a loafer on the street corner, and the clergyman pointed out most distinctly how God will assist all those who are traveling in the way of holiness.

The bishop of Sacramento has deputized Rev. Shurtleff to visit all the churches in this district, and endeavor to collect \$20,000, which will be added to the \$50,000 already subscribed, and which is intended to be used in making this diocese self sustaining.

Rev. Shurtleff informs us that the bishop will in the near future send a pastor to the Jackson church.

School Census

Complete returns have been received in the office of school superintendent W. H. Greenhalgh of the census taking of school children in the respective districts of Amador county. The total number of children is 2159, against a total of 2129 reported last year, showing a net gain of 30 for the year. We shall give the tabulated returns next week.

Miner Injured

George Milojevich met with an accident at the Fremont mine Saturday last. The unfortunate man was working in a stope above the 1300 level when a large rock fell on his foot crushing it. Milojevich was knocked into the stope and fell to the drift below, injuring his leg and back. The injured man was treated by a doctor in Amador until Wednesday last, when he was brought to the home of his cousin, John Milojevich on Broadway. Dr. Gall is now giving the injured miner attention.

Drummers Win Base Ball Game

Last Sunday afternoon Jackson local sports were treated to a game of ball, which was all that could be expected under the circumstances.

Several old baseball enthusiasts, who are now on the road traveling as salesmen, met at the National hotel, and upon learning that no game was to be played in Jackson on that day, scraped a team of drummers together, and in them challenge anything in Jackson. Dr. Endicott, who carries a considerable amount of blue blood in his veins, accepted the offer, and immediately proceeded to get a team together. The two teams were secured, and the game was started with the understanding that the losing side would have to pay for carriage hire and supper.

The game was called at 2:30, and started with all the pomp and dignity that can grace a baseball diamond.

The commercial men had the advantage it seems throughout the entire game, by having a fresh pitcher, although the doctor fought every inch of the ground, and was by no means a defeated hero at heart, although one in reality, as far as his team was concerned, as the score stood 19 to 12 in the traveler's favor.

Several grand stand plays were made, and the large crowd that attended the unheralded game, were well satisfied with the playing of both teams.

Sentenced for Theft

A man named W N Thompson was sentenced in lone to pay \$30 or thirty day for stealing \$25 from a man at Kerr station last Saturday. He grabbed the man's purse from the bar as the owner's attention was directed to his horses. He pleaded guilty, the money being found on him when arrested.

LIMEROCK CO. INCORPORATED

Property Lying Between Sutter Creek and lone to be Developed

On Tuesday last articles of Incorporation of the Amador Limerock Company were adopted and as soon as all signatures are obtained, will be filed in the office of the county clerk, and a certified copy of the same was forwarded to the secretary of state in Sacramento. The company is organized mainly to purchase the lands containing large limestone deposits in the vicinity of Mt. Echo, midway between Sutter Creek and lone, on the lands of Gebhardt, Sibole and Henderson, and develop these deposits for lime-making, cement and sugar refining purposes. The capital stock is \$75,000, divided into a like number of shares a \$1 each. The directors, five in number, named for the first years are W. F. Detert, A. Ginocchio, Geo. W. Brown, Richard Webb, and Jacob Newman. The number of shares actually subscribed and paid for is 225, nine persons subscribing for twenty-five shares each. In addition to this all the stock has been placed, and will be called in as needed, ten per cent being payable on the issue of preliminary certificates, and the balance on instalments as required. The intention is to start development work at once, the first step being to ascertain the extent of the deposits by uncovering the ledge at a number of places, so as to get an idea of the character of equipment to instal to place the enterprise on a working basis. The property bonded by the company embraces about 300 acres, and the price fixed for the whole is \$16,000, payable in instalments extending over a period of over two years, the first payment of ten per cent being due in July next. From this time on, things will be moving at a lively gait around limestone deposits of Mt. Echo.

From this time on, things will be moving at a lively gait around limestone deposits of Mt. Echo.

The ore body at the 3300 level is proving of larger size, and fully as rich in precious metal as the level above. From the massive bodies of milling ore in sight there is no trouble in keeping the big 100 stamp mill in steady operation to its utmost capacity. Last month a dividend of 15 cents per share was paid. Preparations are being made to sink the shaft 100 feet deeper.

Supervisor Grillo Sinking

A message was received by the relatives of supervisor A. Grillo in Volcano last night announcing that the latter's condition was alarming, and stating that they must hurry to bedside in Stockton to meet him again in life. John Grillo left for that city this morning.

Supervisor Grillo was seized with a severe sinking spell while in Jackson attending the board of supervisors last week. When he returned to Stockton from here, he had to be carried from the train to the place where he was staying.

A great reduction sale is now on pattern hats, untrimmed shapes, feathers, flowers, ribbons, laces, nets, everything in the millinery line at Mrs K. L. Delahide's, Weil building.

MINE NEWS ALONG LODGE

Interesting Accounts of Mines Located In Amador Co.

Bunker Hill

At this mine the drift at the 1950 foot level has been advanced over 100 feet into the ore shoot, the ledge so far showing all the characteristics of that opened up in the 1750 level. So far as it has been penetrated, the grade of ore is low—most of it too low to mill. This was the experience in the level above at the same point. This is nothing more than was anticipated. The superior grade of ore is not looked for until the drift has been extended about two hundred feet further, and this will take from five to six weeks more. Everything looks favorable for just the same kind of rich rock as appears in the 1750 drift, where the rich ore body has been drifted upon for over 800 feet, from 10 to 15 feet wide, some of it of bonanza character, and all good milling ore. The limits of this remarkable shoot has not been reached yet. The last clean up was over \$24,000 for the month, leaving a goodly sum to be carried to the surplus after paying the usual monthly dividend of five cents per share.

The directors this month decided that an extra dividend was in order, and gave the stockholders ten cents per share in addition to the usual disbursement of five cents per share. This makes fifteen cents per share, which will be paid on the 15th, making \$30,000 in dividends for one month with a 20 stamp mill. Can a better showing be made by any mine on the coast with like milling capacity. The stock is stiffening in price, \$7 per share being refused a few days ago.

Central Eurcka

A report was circulated last Saturday that a disaster happened at this mine on account of breaking into the old works, and thereby flooding the drift where the miners were at work with the imprisoned waters from the former excavations. Inquiry of the superintendent set all these rumors of disaster at rest. The old works were tapped, it is true, and this was in accordance with the plans of the managements, and to ensure the safety of the employees. No damage resulted, and the employees were not endangered by the experience. The sinking operations have been diverted from the old shaft, so as to ensure stability. Everything is moving along satisfactorily, and it is generally believed that this famous dividend-payer of a few years ago will soon begin to reimburse the stockholders for the heavy outlay incurred in the reopening of the mine.

Levaggi

This quartz claim is located on the trend of the main gold belt, and lies about a mile and a half north of Plymouth. Recently a company of eastern capitalists have secured an option on the property, and are proceeding to operate it. A ten stamp mill is being erected, and is now nearing completion. It is expected that it will be in running order in two weeks. Everything indicates that a paying mine will be opened on this mine.

Kennedy

The ore body at the 3300 level is proving of larger size, and fully as rich in precious metal as the level above. From the massive bodies of milling ore in sight there is no trouble in keeping the big 100 stamp mill in steady operation to its utmost capacity. Last month a dividend of 15 cents per share was paid. A great reduction sale is now on pattern hats, untrimmed shapes, feathers, flowers, ribbons, laces, nets, everything in the millinery line at Mrs K. L. Delahide's, Weil building.

Woman's Exchange.

There will be no Woman's Exchange this week, on account of the supper and bazaar given by the Episcopal ladies, but the Woman's Exchange will be continued again next week, May 21st.

JACKSON TRIMS COMANCHE

Game Was Won by Score of 9 to 3 in Favor of Jackson

Many new features of the possibilities of Jackson's baseball team were brought out in the game with Camanche, on Saturday last, at lone.

This was the hardest team Jackson has met this season, and although the score was 3 to 9 in Jackson's favor, the latter had to work hard to keep the opponents under hand. Ardito really deserves credit for winning the game, as it was a pitcher's battle, and the only pitcher in the battle was Ardito. Had the Camanche team used Jackson's pitcher, or one like him, the score against the local would have been considerably different, as the rest of the Camanche team played excellent ball.

A very remarkable play was pulled off by Myers, who covered left field. A clean ball was sent out into his territory and after a good chase after it, left fielder caught it, and at the same time threw it perfectly true to home plate, putting a runner out at the plate.

Vela, the center field hero, is also showing great shape. His batting is all that can be expected, and he brings down every reasonable ball that reaches his section.

Fortner is fast becoming a star at catching, his team work and good judgment were used to advantage all through the game. Fortner also bats a hard ball and is a good runner.

A decision by umpire Kirby, nearly resulted in a repetition of the Sutter Creek and Jackson game. Skelly was on the second base and tried to steal third, when the ball was thrown over the plate, the batter struck a foul tip and ran for first base, he was put out at first, but Skelly, who saw the ball in action did not return to second, but stole third. The ball was thrown to second base, and the runner declared out. A wrangle ensued and the Camanche players were about to pack up and leave, when Jackson allowed them the put out which retired the team for the inning.

The game was very much enjoyed by all who attended, and was one of the leading events of the picnic.

While the team is all that can be expected, the methods of those who manage the team's welfare is proving to be decidedly wrong. The official score keeper, R. Scott, employed by the Dispatch, is allowed to hold the score book as private property, and he having personal animosity against the Ledger refuses to allow us to copy for our readers who attend the game, a record of the team's work.

Continued on Page 5

Picnic Proved A Grand Success

The picnic held at lone last Saturday was a success throughout the entire program.

The Knights of Pythias lodge, No. 48, had charge of the event, and deserve great credit for giving those who attended, all the enjoyment they could wish for. The morning was devoted to a parade, which started at 10:30. The Uniform rank, K. of P., several floats beautifully decorated, and the Foresters of America, were part of the long line of marchers. The Jackson Military band headed the procession. A game of ball between the Jackson K. of P. and lone K. of P., was won by lone team.

A large dance platform was erected in the park, and here the band furnished music for those who desired to dance. A shoot, cowboy race, buggy race and baseball game were the leading features of the afternoon.

At 4 p. m., the center of attraction was Main street, where all kinds of races were indulged in. The closing features of the program was a dance held in the pavilion. This was largely attended, and lasted until the early hours of Sunday morning.

Several trains were run from Martell to lone, carrying passengers from Sutter Creek and Jackson. All available carriages at the local livery were engaged by Jackson's young folks who attended the picnic.

A MEDICAL REVOLUTION.

There is no field of human investigation that has advanced more rapidly of late years than the science of medicine and surgery. If anything it has more than kept pace with the progress in other departments of effort. The germ theory has revolutionized the practice of medicine. Dr Jenner, when he proclaimed the theretofore unheard-of theory of inoculation a preventive of disease, and applied it to stay the ravages of one of the greatest scourges of the human race—smallpox, sounded a keynote of progress which has been wonderfully enlarged upon since his day. His idea was to introduce a mild and easily controlled form of disease as a preventive of the same disease in its malignant form. Practitioners of the orthodox school scouted his advanced ideas, and denounced him as a dreamer and a wanderer from the established paths of his profession. But the truth which he so boldly advocated slowly worked its way, in face of persistent opposition, to an abiding place in the universally accepted truths of medical science. Indeed, the germ theory of the origin and cure of disease is believed to promise more for the amelioration of the human race than any other method of treatment. Consumption, cancer, and some other plagues, hitherto regarded as incurable, are being treated by the anti-toxin method with marked success. In some instances, complete cures are claimed of these diseases when taken in their early stages, and the hope is confidently held out that in years to come the mortality from these maladies will be materially reduced. Disease in its infinite variety of forms is simply a contest for supremacy between antagonistic forces in the blood; in other words, between disease producing and disease resisting germs. The advance or decline of the malady is determined as one or the other of these contending armies is in the ascendant. It is more or less true, that the life of every person is a constant battle between the marshaled hosts of health and disease in the shape of disease. This is in conformity with that law of nature by which one form of life preys upon another. Men differ in their disease repelling powers fully as much as they do in mental and physical respects. In some the health preserving germs are so active and strong, that disease bearing germs of every description are unable to secure a foothold. Unhealthy microbes may be introduced in millions, but they are killed or neutralized without the least apparent disturbance of the general health. The constitution of another individual may be bomb-proof as it were against one species of germ, and afford a fruitful soil for the propagation of another hostile germ. Thus the citadel of health may be strongly fortified against fever for instance, and easily susceptible to attack from another quarter. Now the drift of medical science, by the use of anti-toxins in combatting disease, is to reinforce the vulnerable spots by the introduction into the system of the patient of the fighting germs of the particular form of disease from which he is suffering. That is to say, by the introduction of new blood from outside sources—blood richly endowed with those elements which are lacking in the patient's constitution—the battle line is thereby reinforced at its weakest point at the most critical time. The resistant forces are in this way placed in the ascendant, and if this condition results the patient recovers. Marvelous cures have already been achieved by this treatment, and the process is yet in its infancy. Even the culture of the disease-fighting germs is a vitally important branch of medical science.

As candidates for county offices will soon get busy in circulating nomination papers, it is in order to state that there is room for a difference of opinion as to method of obtaining signers. On this point the law governing county officials says the petitions must be signed "by at least three per centum of the party vote in at least one-fourth of all the election precincts, and in the aggregate not less than three per centum nor more than ten per centum of the total vote of the party" in the county. This is interpreted to mean that at least three per cent of the party vote must be obtained in every precinct represented on the petition. For instance, two signers in a precinct casting 100 votes for the party would count for nothing, not even figuring in the aggregate of three per cent for the entire county. Republican county candidates must get not less than 32 qualified signers all told, and not exceeding 104. The aim should be to get not less than 5 per cent of each precinct canvassed, and an aggregate of between 50 and 60 signers. To do this will require a canvass of ten to fifteen precincts, including the heaviest voting precincts.

ANCIENT ORDER OF DRUIDS

Install Officers and Hold
Very Enjoyable Entertainment

Jackson Grove No. 114 United Ancient Order of Druids, and its affiliated lodge, Fieri d Italia Circle No. 71, held a most enjoyable official meet and joint entertainment in Odd Fellows Hall on Sunday evening last. The hall was elaborately decorated for the occasion by the deft hands of the lady members, and a large number of invited friends were present to witness the exercises and participate in the festivities. The newly elected officers were installed, R. Belluzzi being the officiating district deputy for Jackson Grove, and D. Biondi the initiating officer for the circle.

The officers of the Grove installed for the ensuing term were: Noble Arch, Domenico Biondi; vice arch, Carlo Codod; recording secretary, R. Belluzzi; treasurer, Paolo Marcucci; conductor, Emilio Sabatini; guardian, Clemente Lorenzelli; outside guardian, Vincenzi Maffei.

The officers of the Circle for the coming term are: Angelo Belluzzi, A. D.; Amelia Bottani, 1st bard; Sello Sabatini, 2d bard; Raffaele Belluzzi, secretary; Rosi Davalle, treasurer.

At the close of the official ceremonies the members and guests repaired to the dining hall, where a sumptuous feast was served, consisting of all the good things of the season. Mrs Sadie Kay and daughter rendered a charming duet with piano accompaniment. Sheriff Gregory was among the guests, and favored the gathering with an address.

These lodges are in a most flourishing state, socially and financially. Jackson Grove has a membership of 291, showing a net gain of six members for the past term. The total receipts for the six months amounted to \$2635.28; and the total disbursements \$2048.65. The lodge has \$3625.11 invested and on deposit in the Hibernia and Columbus Savings banks in San Francisco, and with cash on hand and other resources the total assets are \$5002.39.

The circle has a membership of 66, showing an increase of three members during the past six months. The receipts for the term were \$227.96, and the disbursements \$210.66; the total assets being \$410.71.

Every family and especially those who reside in the country should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by all dealers.

Big Fish Caught In Jackson Creek

For many years fish have been a novelty in the branches of Jackson creek flowing through the city. The south fork, several miles above the city, was stocked with fish several years ago by some enterprising ranchers living along its banks, and they thrived and multiplied greatly, until the anglers from Jackson got wind of their presence and raided the forbidden territory thereby dampening the ardor of those who were trying to restock that stream. The middle and north forks of the creek have been devoid of the finny tribe, at least so it was generally supposed. For the past year or two the middle fork has been free from mining debris, which of course is fatal to fish. Last Sunday some boys were angling for the fish within the city limits, behind the hospital grounds. Lewis Lamb, a veteran angler, came along, and threw his line into a deep place, and in a twinkling pulled out a fine specimen of brook trout, measuring ten inches in length. This is the first catch of the kind inside the town limits that we have any knowledge of within the past thirty-five years. It was probably an escape from the Mokelumne river, that came through the Amador canal into the New York ranch reservoir, and thence into the middle fork.

Saved from the Grave

"I had about given up hope, after nearly four years of suffering from a severe lung trouble," writes Mrs M. L. Dix, of Clarksville, Tenn. "Often the pain in my chest would be almost unbearable and I could not do my work, but Dr. King's New Discovery has made me feel like a new person. Its the best medicine made for the throat and lungs." Obsolete coughs, stubborn colds, hay fever, la grippe, asthma, hoarseness and whooping cough, yield quickly to this wonderful medicine. Try it. 50c and \$1.00. Trial bottle free. Guaranteed by Spagnoli's drug store.

Children Cry
FOR FLETCHER'S
CASTORIA

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher
The Kind You Have Always Bought
In Use For Over 30 Years.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

An Ideal Husband

is patient, even with a nagging wife, for he knows she needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters—the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used them and become healthy and happy. Try them. Only 50c. Satisfaction guaranteed by Spagnoli's drug store.

New School Laws Will Be Advocated

Lively and vigorous discussion of the most important educational questions of the day by nearly a hundred county and city school superintendents of California at their annual convention, held in Riverside, resulted in substantial agreement upon a definite legislative program for improved school laws to be advocated by the leading school people of the state.

Some of the most important legislative recommendations are as follows:

Amending high school law to make possible county polytechnic and agricultural school and joint county parental schools.

Favoring constitutional amendment permitting election of city superintendents for a term of six years.

Indefinite tenure of teachers; that is, to insure permanent employment of teachers who prove worthy.

A state-wide law for teacher's retirement salaries.

Legal provision for county health and development officer.

Provision that funds of joint district be deposited in the treasury of the county where the school house is located—to insure better expenditure of funds.

Raising the maximum age for compulsory attendance in elementary schools from 14 to 17 years, and, also, to make this effective, providing for the transportation of children living more than two miles from school.

That the law be amended so as to permit the participation in institutes by trustees, providing that the expenses of one trustee in each district be paid in attending county institute.

Favoring increased funds for payment of teachers and the maintenance and improvement of schools.

Providing for biennial school census instead of annual. Apportionment of funds is made biennially, so there is no need for annual census.

Amendments to school code to define more clearly the principles of school supervision.

Payment of interest on school orders at the rate of ½ per cent monthly when district is short of funds.

Chamberlain's stomach and liver tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby including good digestion. Sold by all dealers.

ELECTRIC POWER

Generated by the natural fall of a great river, offers the safest and best investment of the present day.

AN INTEREST in the Sacramento River Power Company (incorporated) which owns and controls one of the greatest sources of water power in the West, at Kennett, Shasta County, California, means an income to you for life, and to your heirs after you. It is a mine of wealth that can never be worked out.

Situated at the head of the great Sacramento Valley, with electric roads projected in every direction and being rapidly built, only 275 miles from San Francisco and Oakland, and 185 miles from Sacramento, to which points electric power is now being transmitted, the market is practically unlimited.

Stock is now selling at \$5.00 per share payable in five monthly instalments if desired, or 5 per cent discount allowed for cash. Only 10,000 shares more are to be sold. Balance of money required for installation of plant is raised by sale of bonds.

By investing now you get a large interest at small cost; and every share you buy will pay 50 per cent annual dividends on its present price when plant is completed. This will be demonstrated to you if you doubt it.

No order accepted for less than 10 shares. Remit by check, draft or money order. If you desire further information, cut out the attached coupon fill it out and mail to us. This will involve no obligation to buy stock, but will bring you full particulars.

Sealed Proposals

FOR

Driving City Sprinkling Wagon

SEASON OF 1910.

Pursuant to law and a resolution of the Board of Trustees of the City of Jackson, California, adopted April 7, 1910, the undersigned will receive bids at his office in the Marcella building, Court street, Jackson, California, until 1 o'clock p.m. on May 6, 1910, for doing the following work, to wit:

Driving the City Sprinkling Wagon during the coming season. Contractor to furnish a first-class four-horse team and driver over twenty-one years of age, work to be prosecuted ten hours a day, seven days a week.

The successful bidder will be required to give security in the sum of \$500.00 for the faithful performance of the work, and will be required to water the public streets of the City of Jackson to the satisfaction of the City Officials, according to specifications on file in the office of the City Clerk. Failure so to do will work a cancellation of the contract, and subject the bidder to the penalty of his bond.

Right reserved to reject any and all bids.

C. M. KELLEY, City Clerk, ap13 3

Dated April 16, 1910.

Assessor's Notice

Notice of Commissioner's Sale on Foreclosure of Mortgage

In the Superior Court of the county of Amador, State of California.

Helen K. Walker and Eleanor M. Fonda, plaintiffs, vs. Gold Top Mining Company, a corporation, First Doe, et al, defendants.

Under and by virtue of an order of sale and decree of foreclosure issued out of the Superior Court of the county of Amador, State of California, on the 4th day of April, 1910, in the above entitled action, wherein Helen K. Walker and Eleanor M. Fonda, the above named plaintiffs, obtained a judgment and decree against the Gold Top Mining Company, defendant, on the said 4th day of April, 1910, which said decree was, on the 4th day of April, 1910, recorded in Judgment Book "4" of said Court, at page 381, I am commanded to sell;

All those certain lots, pieces or parcels of land situated in the county of Amador, State of California, and bounded and described as follows, to wit:

The Orchard Placer Mining Claim, being the north 1/4 of the southeast 1/4 of the southwest 1/4 of Section 33 in Township 7 North Range 12 E., M. D. B. & M., and containing 20 acres, more or less, together with all rights and privileges appurtenant thereto.

Also, all of Lot 7 in Block 4 in the town of Pine Grove, Amador county, State of California, and containing 24.91 acres of land, more or less, together with all rights and privileges appurtenant thereto.

Notice is hereby given that on SATURDAY, the 30th day of APRIL, 1910, at 10 o'clock a. m. of that day, in front of the Court House, in the City of Jackson, county of Amador, State of California, I will, in obedience to said order of sale and foreclosure, sell the above described property, or so much thereof as may be necessary to satisfy plaintiff's judgment, with interest thereon and costs, to the highest and best bidder for cash, in gold coin of the United States.

Dated the 5th day of April, 1910.

JAS. JAY WRIGHT, Commissioner.

Services at Methodist Church

On Sunday morning, May 15, the pastor will preach on "What christianity has done for women." He will speak of women under the old Roman law, and under early Tentonic sway, and under the oldest and best religions of the east.

He will speak of the conditions of women under the teachings of Confucius and of Buddha and of Brahma, and of Mohammed and then give the bible idea of woman, and prove that the lofty position held by women to-day is due to christianity.

The church should be filled with women to hear this important subject discussed. All are cordially invited.

In the evening the subject will be "Repentance and its effects." The public is invited to both services.

Heiress Eloped With a Young Clerk

Evansville, Ind.—Miss Bessie Morgan of Owensboro, Ky., an heiress under age, whose mother is worth several million dollars, eloped with and was married to Forrest E. Miller, an Owensboro clerk, while her father hastened to Jefferson, Ind., thinking they were running to that Gretna Green.

The bride's twin sister recently married Jack M. Barrett, a cigar salesman of San Francisco, who, when she deserted him, sued her father for alienating her affections, but finally agreed to give her a divorce for a money consideration.

Woman More than 100 Years Old Beaten By Stranger

Mrs Castilda Rodriguez, who says she is more than 100 years old, lies in a dying condition at the Central Emergency Hospital as the result of injuries inflicted by an unknown man, who, she says, attacked her with a hatchet. Detectives Bell, and policeman Powers have been in a search for her assailants, but so far have failed to find a clew to their identity.

Mrs Rodriguez was found by small boys lying on the floor of her home at 78 Alta street. She was unconscious, and the blood was flowing from numerous ugly gashes in her head and face. She regained consciousness after removal to the Central Emergency Hospital, and told the police that she had been attacked by a stranger, who called at the house to see her husband. The police have been unable to locate either stranger or the husband of the injured woman.

Candy As Food

Ably Discussed

Anxious mothers, says a writer on household topics in the Boston Herald, who read what is said on both sides of the sweet question, and who want to take good care of their children's health, but not to deny them any harmless pleasure, must be sadly perplexed. One class of writers consider sugar in any shape as next to poison, and seem to hold it responsible for half the ills of life. If you follow their teachings, you will feel it criminal to let a child ever taste sweets.

On the other side, we read how very nourishing sugar is, how different governments give their soldiers extra rations of sugar when there are special demands on their strength and endurance. Then there are reports of fattening cattle on treacle, and interesting items on the fine teeth and good health of the negroes on sugar plantations, and the great amount of sugar cane they eat. Reading such articles one might think it a duty to give children all the sugar they want.

Both views are extreme and not applicable to the case. The fine teeth of most negroes is a race characteristic, and probably is no more affected by their diet than is their kinky hair, and children don't have to do the work of sodiers or plantation hands. But a liking for sweets is surely a natural taste. All domestic and most wild animals are fond of sugar and honey; and all children and most grown people like sweets so well that it's a pity they should not have a reasonable amount if it does not do them any real harm.

Dr. Woods Hutchinson in a late lecture on the subject, carries the discussion further along. He says:

"Give children plenty of pure sugar, taffy and butterscotch, and they'll have little need of cod liver oil. In short, sugar is, after meat, bread and butter, easily our next important and necessary food. You can put the matter to a test very easily. Just leave off the pie, pudding and other desserts at your lunch or midday dinner. You'll be astonished to find out how quickly you'll feel 'empty' again, and how 'unfinished' the meal will seem. You can't get any workman to accept a dinner pail without pie in it. And he's absolutely right. The only thing that can take the place of sugar is beer or wine. It is a significant fact that the free lunch counters run in connection with bars furnish every imaginable thing except sweets. Even the restaurants and lunch grills attached to saloons or bars often refuse to serve deserts of any sort. They know their business. The more sugar and sweets a man takes at a meal the less alcohol he wants. Conversely, nearly every drinking man will tell you he has lost his taste for sweets. The more candy a nation consumes, the less alcohol.

A Man Wants to Die

only when a lazy liver and sluggish bowels cause frightful despondency. But Dr. King's New Life Pills expel poisons from the system; bring hope and courage; cure all liver, stomach and kidney troubles; impart health and vigor to the weak, nervous and ailing. 25c at Spagnoli's drug store.

Valuable Horse In Smash Up

A horse trainer named Hartte, met with an accident last week that might have proved very disastrous, but which turned out to be trifling. Hartte was driving Duke, a pacing stallion along the county road near Amador at a pretty good gate, when his cart struck a pile of rocks in the roadway, and the shaft snapped. The driver was thrown to the roadway, and the horse ran into an inclosure at the Keystone mine, and there fell and was captured by miners, and taken to the livery stable where his owner received him.

THE UMPIRE WAS GAME.

And He Made the Kickers Play Out the Last Inning.

Speaking of the doings of the veteran umpires, an old timer claims that Honest John Kelly is entitled to the record for freak doings among the indicator handlers. Back in the American association days, in a game played on the old Union grounds in Allegheny, Galvin was pitching for Pittsburg against Casey of the Athletics. Kelly was the umpire. In the ninth inning, with the score 5 to 0 in favor of the Athletics, the first man up for Pittsburg made a home run hit to center, and the visiting team at once set up claim that it was too dark to play.

The center fielder came all the way in and pretended that he could not see the ball in the gathering darkness. "Here," said Kelly; "give me a glove," and with that he started for center field. "I'll see how dark it is out there," he said. "You, Casey and Galvin, bat me out a few." Players and spectators gasped, but Kelly made good his bluff. He went out to deep center and, with the smoke of the mills lying low about him, actually caught ten or fifteen long line drives and high flies from the bats of the two pitchers without missing one.

Then the umpire came in and, taking off his glove, said: "Play ball. If I can see 'em out there, you fellows can." The game was resumed, and the Pittsburg won in a great batting rally by 6 to 5.—New York World.

WET AND DRY MOONS.

Old Superstition and Cold Facts From the Astronomers.

There is an old superstition which dies hard, and that is that the position of the horns of the new moon tells what the weather will be. If the horns of the crescent are on the same level it will hold water, and hence it is a dry moon, but if it is tipped up then the water will run out, and it is a wet moon.

One thing has helped keep this belief alive. The moon is "dry" in the part of the spring that is usually fair, while it is "wet" during the season of autumn rains.

If this were a sure sign of the weather we could have our predictions published many years in advance, for an astronomer can predict the exact position of the moon at any time in the future.

The cause for the different positions of the crescent is simple. The moon is south of the sun in the autumn and north of it in spring. The crescent is found by the light of the sun falling on the moon, and the horns are naturally in a line perpendicular to the direction of the sun from the moon. That is all there is to this old superstition.—Boston Herald.

Confucius.

Confucius regarded his own life as a failure. He spoke against ambition, yet he coveted high office, nothing less than that of political adviser to some great ruler. A man of the highest lineage in China, he was yet poor and early supported himself by teaching. His pupils showed him an extraordinary devotion. The pick of the young men in his native state of Lu sat at his feet, and it was they who transmitted his tremendous influence. But Confucius saw not his immortal success, but his temporal failure. Only for a few brief years did circumstances permit him to exercise his practical genius for government. He became first a magistrate, then chief criminal judge in Lu, and, to quote Professor Legge, "crime ceased." Confucius, however, became dissatisfied with the ruler whom he served, a weak man who neglected his duty and gave himself up more and more to dissipation, so he resigned his post and banished himself.—London Spectator.

Don't Give Up.

Among some skaters was a boy so small and so evidently a beginner that his frequent mishaps awakened the pity of a tender hearted if not wise spectator.

"Why, sonny, you are getting all bumped up," she said. "I wouldn't stay on the ice and keep falling down so; I'd just come off and watch the others."

The tears of the last downfall were still rolling over the rosy cheeks, but the child looked from his adviser to the shining steel on his feet and answered, half indignantly:

"I didn't get some new skates to give up with; I got 'em to learn how with."

Life's hard tasks are never sent for us "to give up with;" they are always intended to awaken strength, skill and courage in learning how to master them.—Selected.

Narrow Escape.

She—Of course he bored me awfully, but I don't think I showed it. Every time I yawned I just hid it with my hand. He (trying to be gallant)—Really I don't see how a hand so small could—er—hide—er—that is—beastly weather we're having, isn't it?—Philadelphia Press.

Told Often Enough.

"I ought to know what is right and proper."

"So?"

"Yes; I've three grownup daughters at home to tell me."—Detroit Free Press.

An Old Saying Amended.

The Man—Won't you marry me, then? Bachelor Girl—Certainly not! When singleness is bliss 'tis folly to be wives.—Illustrated Bits.

A man must be excessively stupid as well as uncharitable who believes there is no virtue but on his own side.—Addison.

SHENANDOAH VALLEY

May 10.—Mrs Jim Sharp and son Fred, who went to Sacramento a few days ago to visit relatives, have returned.

Hazel Smith, Florence McClary, and Fred Giles were the guests of Bessie Brumfield on Sunday last.

A social dance was given at Pigeon creek on May 7, which was largely attended. Good music was furnished, consisting of violin, organ and guitar. Everybody enjoyed a jolly good time.

Dora and Chas Upton, who have been attending business college in Stockton, have returned to their home in Shenandoah valley.

Lewie Seeley of Aukum was the guest of his mother in law, Mrs Kretcher of this place.

Ed Brumfield, who has been quite sick with malaria fever, is slowly improving.

Joseph Wrigglesworth of this place had quite a serious accident happen to him last week. While walking along he tripped on a nail, which ran in his foot causing much pain. His foot seems to be improving.

A ball game was played in Shenandoah valley on Sunday last between Shenandoah and Bridgeport. The score was 10 to 11, in favor of Bridgeport.

Herman and Flora Goffinet went to Edners on Sunday last on a fishing trip, returning with some fine trout and a nice string of bass.

Clara Hite and daughter Marie, visited Mrs Joe Wrigglesworth last Sunday.

Mrs Chas Walton left Sunday morning on the outgoing stage for Fresno, where she will attend the grand lodge.

O-U-Kid

AMADOR BRIEFS

May 12.—Mrs J Leessley and family left Tuesday for Stockton, where they will make their future home.

Mrs I. M. Hibbard and children will leave Thursday for Illinois, where they will spend the summer with friends and relatives.

The Sutter and Amador band combined, gave a street concert Sunday evening. Many people enjoyed the music.

Miss Hornberger, a teacher of the Amador public school and the pupils of her class, went on a picnic Saturday. The children enjoyed themselves very much.

The men are working very hard to finish the new steel bridge.

Mrs Pierce and daughter Maud, left for Arizona for a visit with friends.

Mrs Warder of Oleta was a visitor of Amador Wednesday.

Miss Myrtle Boneau returned home Monday after a visit in Volcano.

Mrs Chichizola left Sunday for San Francisco, where she will visit with relatives.

Prompt relief in all cases of throat and lung trouble if you use Chamberlain's cough remedy. Pleasant to take, soothing and healing in effect. Sold by all dealers.

UNCLAIMED LETTERS.

Letters remaining unclaimed in the Jackson, Cal. post office for the week ending May 13th:

Mrs Octavey Linsey, Cjure Kosich, John Mossoni, Cesare Musetti, Harriet Prout, Edward Wager, George Vukovich.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's colic, cholera and diarrhoea remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all dealers.

Card of Thanks

We wish to express our thanks to all who assisted in any way in the last sad rites over our beloved father and brother in law, Tobio Ferrasci.

Teresa Ferrasci and sisters
A. Cottini

Lion Fondles A Child

In Pittsburg a savage lion fondled the hand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through colds, croup, and whooping cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of croup," writes Mrs George B. Davis, of Flat Rock, N. C. "We always give it to him when he takes cold. It is a wonderful medicine for babies." Best for coughs, colds, la-grippe, asthma, hemorrhages, weak lungs. 50c. \$1.00. Trial bottle free. Guarantee by Spagnoli's drug store.

The RED FRONT

PLYMOUTH LOCALS

May 10.—Mr and Mrs L. Burke, accompanied by their son Thomas, left for Sacramento Friday, where they will visit for a few days. From there Mr and Mrs Burke will go to Fresno, where Mr Burke goes as a delegate for Plymouth lodge of Odd Fellows.

Mrs Chas Devore and children, accompanied by Mrs E. E. Huey, visited the former's mother, Mrs Picket of Cosumnes. They also attended the Granger's picnic at Elk Grove.

Quite a number of Plymouth people attended the K. of P. picnic at Lone Saturday last, and report having a fine time.

Will Norman of Sacramento and Ed Purcell of Jackson, were calling on relatives and friends one day last week.

Several bands of cattle and sheep have passed through town on their way to the higher altitudes for the summer months.

John McGregor, who has been engaged driving team for C. C. Celio and Sons, met with quite an accident while coming down what is known as Log Town hill. In some manner, the lock chain broke causing quite a mixup. It is reported that no serious damage was done to the driver or team.

Arthur Wilds and George Easton jr., went to Sacramento via Latrobe last Sunday. They intended returning home the same day, but missed the train and did not return until Monday. Poor excuse is better than none boys.

Edgar Maylone of Cedar Grove passed through town Monday enroute to Fresno, where he goes as a delegate for Telegraph lodge, I. O. O. F.

Mrs Ola Walton has gone to Fresno to attend the Rebekah assembly, which is in session at that place. She goes as a delegate from Plymouth Rebekah lodge.

Miss Mabel McFarland of Forest Home, is visiting Mrs Laura Butler of this place.

Thomas Burke has returned from a visit to Sacramento, and reports having had a fine time.

Several of the nimrods from here went fishing in the Cosumnes river, about 15 or 20 miles above here and report fishing good, but catching poor. There did not seem to be any of the baskets overloaded.

J. E. Walton of this place, and W. F. Fisher of San Francisco were business visitors in Jackson one day last week.

From all reports the mill that is being erected on the Mt de Oro Mine will soon be completed and ready to pound out the precious metal. We all wish the promoters of this mine all kinds of success.

The farmers of this vicinity are busily engaged in cutting hay.

Elvin Shealar has gone to Martell station to drive team for Al Dufrene. His wife will accompany him in the near future. They intend making their home there for the summer.

The Native Daughters held a picnic at the Odd Fellows hall last Saturday for the amusement of the little children. A good time was had by all those who attended. Wild Roses.

SUTTER CREEK

May 11.—John Higgins sen., left Sunday morning, and Mrs H. Lehmann left Monday morning for Fresno, as representatives to the grand lodge, of I. O. O. F. and Rebekah assembly, which convenes at that place this week.

Mrs Saunders, mother of Mrs Geo Gillick of Sutter Creek, arrived here from Grass Valley, and is seriously ill at the residence of her daughter.

Frank Risedorph left Wednesday morning on a brief business trip to Galt.

Mrs James Parks, who has been living in Nevada, arrived here Sunday evening, after visiting some weeks with relatives in San Francisco, and will visit with her parents, Mr and Mrs Theo Lithgow for a few weeks.

The ladies of Trinity Episcopal guild are preparing to give a lawn social on the afternoon and evening of May 17th on the Brinn lawn.

Mrs Tolman, mother of Geo. Tolman of Sutter Creek, arrived here from San Francisco Wednesday evening.

The lady minstrels to be presented by the Native Daughters in Sutter Creek, promises to be a success. The ladies and all who are taking part have been practicing faithfully, and a large attendance is anticipated.

Mrs Eli Vandament, Mrs T. Simmons, Mrs Elmer Tanner and Miss Amy Pharis were visiting friends in Jackson Thursday afternoon. Sutterite

Fined for Assault

A disturbance which resulted in the arrest of G. Gosso was the outcome of a fight between Gosso and Chezo Getulio. Gosso attempted to remove furniture from the latter's home, and Getulio objected, claiming that an order must be shown before he would allow anything to be taken away. A fight and arrest followed, and at the hearing Gosso was fined \$20.

DITCH TENDER FOUND DEAD

Continued from Page 1

The exact manner in which Ferrasci came to his death can only be surmised. He was alone at the time, but all circumstances point to death from accidental drowning. He was last seen alive by Cory McKenzie, another employe along the ditch about five o'clock Sunday evening, at half an hour's walk from the flume where he is believed to have fallen into the ditch, and more than five miles above the place where the body was afterwards recovered from its watery grave. McKenzie did not speak to him, simply saw him at a distance. The following morning word was sent along the line of the ditch that Ferrasci was missing, and a search was at once instituted. About noon Monday, John D. Walker, foreman on the ditch, found the body of the unfortunate man in the canal about a quarter of a mile above the Petty reservoir, and fully five miles below the flume where the mishap is supposed to have occurred. With the aid of Mr Kimball, the body was taken from the water, and afterwards carried to the camp at the Petty reservoir.

There was a cut across his forehead, also a slight scalp wound, which may have been caused by striking against some object. Both were evidently made while living, and recently. His hat was found lodged against the screen of the Petty reservoir, a quarter of a mile below the place where the body was recovered. It seems that the water had been turned off the ditch during Sunday, so as to enable some repairing to be done. This left the flume and beat of the deceased dry that day, and gave him a rest. A strip of planking eighteen inches wide placed over the top of the flume formed a path for the ditchtender to pass to and fro over his beat. It is the experience of employes that it is more difficult to travel over the flume when the water is turned off than when the ditch is full. The theory is that in crossing this flume, when dry, Ferrasci lost his balance, and in falling struck his head against the timber, rendering him unconscious. That while he lay helpless the water came along, and he was drowned.

Coroner H. E. Potter summoned a jury the same evening. The remains were brought to Jackson, and the inquest was held Tuesday morning, before the following jurors: Carlo Giovannoni, John Millosovich, A. B. Arditto, W. M. Penry jr., H. N. Mason, A. L. Lucot, W. D. Ould, W. J. Ninnis, Frank Simcich, Matt Joy and Wm. Tam. The witnesses examined were John D. Walker, Cory McKenzie, W. H. Hopkins, and Benedetto. The jury returned a verdict that deceased, Tobia Ferrasci, was a native of Cognasco, Switzerland, aged 49 years, and came to his death on the 8th day of May, 1910, by accidental drowning in the upper Standard canal of the Pacific Gas and Electric Corporation.

Deceased was a member of the Ancient United Order of Druids, and the funeral took place in Jackson yesterday under the auspices of the local lodge, services in the Catholic church, the remains being deposited by the side of the other members of the family who perished in the disaster of three years ago.

POLITICAL ANNOUNCEMENTS.

F. G. STEVENOT

Of Carson Hill, Calaveras county, announces himself a candidate at the forthcoming Primary Election for the Republican nomination

FOR ASSEMBLYMAN

11th Assembly District, comprising the counties of Amador, Alpine, Calaveras and Mono.

"BANKING BY MAIL."

DONT HIDE YOUR MONEY

The man who hides his money because he assumes to be afraid of banks forgets that it was the bank that perhaps made the prosperity possible which gave him his money making opportunities. Without the bank there would be no large commercial or business enterprises possible, salaries and wages would be low, and money making impossible. It is the bank in the exercise of its function in gathering together the funds of a community and putting them into active use that has brought prosperity.

To hide money is to hinder and hurt prosperity by restricting the circulation of money. Bring your money to the bank.

Bank of Amador County
Jackson, California

BANKING BY MAIL

The Stockton Savings and Loan Society with resources of \$4,000,000.00 offers every facility for doing a banking business by mail. Checks taken payable in any part of the United States. Our system of banking by mail practically brings this great bank to your door. To open an account with us, place the amount you wish to start within an envelope addressed to us and by return mail you will receive a bank book showing the amount of your deposit. The United States mails are safe and no one ever lost a dollar in this way. We solicit the accounts of farmers, business men and others and assure them courteous and liberal treatment.

BLOOD TELLS

Good blood tells, they say, and bad blood certainly does. Poor or disordered blood tells its own story in lowered vitality loss of energy, in skin eruptions, in rheumatic pains and in a pallid or sallow appearance of the complexion. This is the season of the year when the blood is most apt to be disordered. Take

Ruhser's Compound Extract of Sarsaparilla

It purifies and enriches the blood. It cures boils, pimples and other skin troubles. It expels rheumatic poison from the system. It builds up strength and energy.

JACKSON CITY ITEMS

Continued from Page 1

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, Main 75; residence, black 394; Jackson.

Mrs. Antone Ratto came up from the city the latter part of last week, to spend several weeks with relatives in this city.

I am prepared to go out as nurse to sick ladies in confinement. Mrs. E. S. Pitolo, No. 73 E. Court street. m18

The splendid work of Chamberlain's stomach and liver tablets is daily coming to light. No such grand remedy for liver and bowel troubles was even known before. Thousands bless them for curing constipation, sick headache, biliousness, jaundice and indigestion. Sold by all dealers.

Assessor Jarvis will be in Jackson next Monday and thereafter for purpose of assessing property in this township. tf

Michael Spich, a miner from Lead City, South Dakota, came to Jackson last week, and will reside with his cousin, John Milogaych on Broadway.

Milosh Kuraica will make his home in Jackson. He was formerly a resident of Lead City, South Dakota, but came here to work in the mines.

A number of persons have visited the rock crushing works of the city at the Anita dump. There is a unanimity of opinion that the enterprise is far more likely to prove a white elephant than otherwise. What strikes the average man most is the small quantity of material to work upon compared with the magnitude of the plant installed to reduce it. The only reply to queries along this line is that there is plenty of rock left in the Anita.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts.

Mrs. Emma B. Wright, wife of J. J. Wright left Jackson Wednesday last for Fresno, where she will attend a convention held by the Rebekah lodge. Mrs. Wright goes as a delegate from the local lodge, and will be absent about 4 days.

Martin Gregovich, a taylor from San Francisco, is the guest of J. Milogevich, Jackson.

The committee appointed to take charge of the Italian picnic, which will be held on the 5th of June, are busy making all arrangements necessary for a successful day of pleasure.

The committee consists of C. Boro, A. Piccardi, R. Malatesta, D. Berta and M. Mazzoni. Sutter Creek's band has been secured, and will furnish music throughout the day and evening. The picnic is held at Fullen's Grove near Martell.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health—keeps you well.

DOCUMENTS RECORDED.

The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so

Deeds—Ed Muldoon et ux to Kennedy Ex G M Co—Muldoon G M and M and part of NW of 21-6-10, \$10.

Attachment—Amador Keystone M Co vs Cal Con M Co—Attaches all property of said company and adjoining Sutter Creek and Amador City, demand. \$112,946 95.

Landman vs Cal Con M Co—Attaches same property, demand. \$10,193 25.

Lease—Sultana J White to R Rugne—3 year lease of lots 17 and 32, block 10, Jackson, \$30 per month.

STODDARD TRAVEL CLASS.

A Stoddard travel class with the object, entertainment and intellectual improvement, by the study of stoddard series, is being organized here. Mrs L. B. Sinclair of Chicago, has been in town for the last few days organizing a class.

They will take the study of travels on the Stoddard course, which will be embellished by stereopticon lectures, entertainments, etc. etc., during the coming winter.

The Stoddard course is becoming popular in cities and towns, and as there are some 500,000 patrons to these lectures, and more than 8,000,000 people have heard them during the past eighteen years, while Mr Stoddard was on the rostrum, it is no wonder that the study of them is a source of pleasure and profit.

The following are patrons of the lectures: Mrs Jas Jay Wright, Minnie T. Gardella, W. H. Greenhalgh, Mrs Mary Maria, W. J. Peters, Mrs Vicini, Mrs Geo. L. Thomas, Miss Amy Clark, Mrs Annie Hurst, Judge Fred V. Wood.

The class intends to make the organization a semi-public affair, by inviting persons at the lectures, and by having occasional entertainments. At an early date, they propose to add the functions of civic improvement club.

Flees for Liberty While Pardon Awaits Him

Phoenix A. T.—When Juan Ramirez, a convict from Tucson, decided to take advantage of his privilege as a trusty and make a break for liberty, he did not know that he was fleeing from a pardon. Ramirez was serving a six-years' term for burglary, and the pardon arrived at the penitentiary almost at the moment that his absence was noted. The pardon was sent back to the governor, and Ramirez is being hunted as a fugitive from justice.

JACKSON TRIMS COMANCHE

Continued from Page 1

Of the \$82 and 35 cents receipts which the club collected at its last game in Jackson, we leave our readers to decide how much of it was paid by Ledger patrons, and speaking in behalf of our readers, we suggest that the manager take some steps in correcting the condition of affairs, and refuse to allow any narrow, selfish disposition to jeopardize the team's progress.

The Ledger proposes to help the team in every way it can if proper appreciation is shown, and to expose all manner of ingratitude which may be shown to the Ledger and its patrons, in case the present method of score keeping is not changed. We are informed by very enthusiastic rooters that the policies of the Scott are absolutely not in accord with the desires of the team, and positively obnoxious and unapproved of by others. An official score keeper should by no means be allowed to monopolize a public matter for a certain paper, because he is so dense as not to be able to understand that in so doing he is injuring the town and the team. Scott's remark to the Ledger's reporter, that he would allow any other paper in the country to have a copy, but would boycott the Ledger, warrants his immediate removal, if the team expects the credit it justly deserves.

All communities have narrow-minded people, and they should not be tolerated in any official capacity. If the Dispatch owns the score book, and the team has no official record of its own, it is about the poorest management that a team could have, and the team should see that its most necessary need be supplied. Favoritism in public matters is the poorest example of progress that can be exhibited, and as our patrons help in more than one way in advancing the team, we shall expect to have no further trouble in securing a complete account of the team working in the future.

SUPERIOR COURT.

HON E. V. WOOD, JUDGE

Edward Van Vranken, administrator vs Robert Jameson et al—May 17 designated for settlement of bill of exceptions as presented by plaintiff.

Estate of J A Fregulia—Order granted for sale of certain personal property without notice.

Estate of W H Burns—Letters of administration issued to Lawrence White; appraisers appointed; inventory and appraisal issued, the appraisers are J Chichizola, S J Pearce, and A Cavagnaro.

New Cases.

Amador Keystone M Co. vs California Consolidated Mines Co. Complaint filed and summons issued. Suit is brought to recover \$150,000, balance due on purchase price of \$200,000 for Keystone and adjacent properties at Amador City, with interest on said amount from April 2, 1909. Suit is for foreclosure of vendor's lien, Jasper M. McDonald complainant. George L. Sargent, plaintiff's attorney.

Hypnotized His Mother-In-Law.

Wilkesbarre, Pa.—Because he hypnotized his mother-in-law whenever she annoyed him and rendered her speechless and helpless, Peter Avondale of this city was arrested at the instance of his mother-in-law, Mrs William Rose, of this city, and was given a hearing before Mayor Lewis P. Kniffen. It was a novel case, and the mayor demanded a full explanation. Mrs Rose explained that Avondale had a peculiar power in his eyes, and that he possessed complete hypnotic control over her, his wife and his children. She said that every time that he desired to do so, he managed by a look of his eye to make their limbs and their tongues useless, so that they sank to the floor speechless and remained so until Avondale chose to release them.

The accused man, a meek looking fellow, denied that he had hypnotic powers or any control over his mother-in-law. Mayor Kniffen, however, held him under \$500 bail to keep the peace.

SUMMARY OF THE NEWS

London.—George V., takes the Scepter, while nation mourns death of his father, King Edward VII.. London City of silence.

San Jose, Costa Rica.—Fifteen hundred lives were lost in an earthquake at Cartago. Not a house is standing. Much suffering is experienced from lack of provisions.

SCHOOL APPORTIONMENT.

Jackson, Cal. May 11 1910.

To the Boards of Trustees of Amador County:

Ladies and Gentlemen:—I herein report to you the second county apportionment for the school year 1909-10. The auditor reports that there is \$6238.11 available for apportionment; to this sum has been added \$208.70, the balance remaining in the unapportioned county fund, which gives a total of \$6446.81. Of this amount I apportioned \$6068.25, leaving a balance of \$378.56.

The next apportionment will be of state money and will be made in July.

Joint districts Bridgeport, Middle Bar, and Pigeon Creek.

Very respectfully,

W. H. GREENHALGH,
Superintendent of Schools.

V Regular Tom Boy

was Susie—climbing trees and fences, jumping ditches, whistling, always getting scratches, cuts, sprains, bruises, bumps, burns or scalds. But laws! Her mother just applied Bucklen's Arnica salve and cured her quick. Heals everything healable—boils, ulcers, eczema, old sores, corns or piles. Try it. 25c at Spagnoli's drug store.

Acme Candy Store Changes Hands.

Joseph Datson, a former resident of this city, and also of Plymouth for a number of years, has returned to make Jackson his home. He was recently married, and the pair have decided that there is no better locality for a home than Amador county. Mr Datson early this week purchased the stock and good will of the Acme candy store and ice cream parlors on Main street from Fred Eudey. It is rumored the price paid was \$1000. Mr and Mrs Datson will conduct the business themselves. This business is centrally located on the east side of the main business block. It has always been a popular resort for ice cream, cream soda, candies, tomatoes, and other delicacies. Under the new management it is expected that it will enjoy ever a greater measure of patronage than in the past, as the present proprietor will aim to please his customers by giving them the best quality of articles that can be had. The advertisement for the Acme parlors appears in another column.

Citizens Raze Billboard

Despairing of ever securing legal redress against obnoxious billboards, several residents of Santa Clara avenue and Stanton street, in Alameda, completely wrecked a partially completed bill board at that corner. A few weeks past a billboard at the same corner was torn down by indignant residents and chopped to pieces. The residents have voiced complaints to the city officials against the obstructions, but as there is nothing in the city ordinances against them, nothing could be done.

The Alameda Improvement Club, which has led the campaign against the beauty barriers, has communicated with various other similar organizations in the state in an effort to secure combined sentiment against the bill board.

Build Temperance Wall

Los Angeles.—Unable to keep out the troublesome liquor by any other means than posting every abstemious veteran on the guard, the soldiers' home authorities have hit upon the plan of building an unscaleable fence around the large grounds, and this will be done at once. The entrance will remain open, but the guards will be stationed here at all hours, and it is believed smugglers will have no possible chance to get inside. All liquor found on the grounds that may be fit for use will be confiscated hereafter and turned over to the drug department at the hospital. A feature of the new method of discipline will be large gatehouses at the main entrances, where sharp watch will be maintained.

More Candidates.

The political card of J. E. Walton, publican candidate for coroner & public administrator, will be found in another column; also of A. Lehn, republican candidate for justice of peace in township 3.

BORN

READ—In San Francisco, May 7, 1910 to the wife of Robert Read, jr., a daughter.

MARRIED.

RULE-TREBILCOCK.—In Jackson, at the Methodist Episcopal parsonage, May 9, 1910, by the Rev. Thomas H. Nicholas, Samuel J. Rule to Miss Ellen Jane Trebilcock, both of Jackson.

TITUS-LEONE.—In Jackson, May 11, 1910, by Alfred Golder, J. P., Theron W. Titus and Myrtle E. Leone, both of Jackson.

EICKE-TAYLOR.—In Ione, May 12th, 1910, Dana P. Eicke and Florence G. Taylor, both of Sacramento.

GREEN-GRITTON.—In Stockton, May 9, 1910, by the Rev. John Stephens, William R. Green and Ellen A. Gritton, both of Jackson.

DIED.

FERASCCI.—Near Clinton, May 8, 1910, Tobia Ferascci, a native of Switzerland, aged 49 years.

FROM OUR EXCHANGES

News of Interest from Near-by Counties

While hunting last week Lester Howard of Railroad Flat, Calaveras county, struck his foot against a rock and fell. The gun was discharged and the shoe shattered his left wrist so badly that his hand had to be amputated.—Banner.

Louis Jones, who recently bought a band of 700 goats from Red Bluff to act as scavengers on his cattle range, has sold the whole band to Amador county butchers, and will buy another band at once.—Prospect.

Mrs. Mercer and her brother, Gus Castruccia left for Jackson Saturday morning. Their mother, Mrs. Podesta is to undergo an operation for kidney trouble at the Sutter Creek sanitarium. Dr. Goodman is her physician and will perform the operation.—Prospect.

At Camp 20 of the West Side Lumber company, Luke Harney, a chopper, was a victim of a mishap that nearly ended his life. With his partner, York Houck, he was felling a large sugar pine. In its descent, its limbs interlaced with another tree and a heavy branch was broken off. It fell upon the head of Harney and crushed him to the ground. Effect of the blow was to tear from the skull more than half of the scalp, which hung by mere threads of skin. One hundred stitches were required to replace it. The shock to his nervous system caused paralysis to both arms. Report of physicians is that he will recover.—Banner.

Old Indian Woman Killed by Man's Blow

A rather startling sequel has come to hand regarding the finding of the dead body of "Old Sally" the Indian woman on the Sheep Ranch road, mention of which is made by our Murphys correspondent. As the dead woman was quite old, and the story told by the Indians seemed natural enough, it was at first supposed that the woman had died a natural death, and Coroner Prince, who had been summoned, commenced the inquest at the rancheria under that impression, but when one of the companions of the dead woman told his story, another aspect was given to the case. It appears that this woman, who though about 65 years of age, had a husband, John Hodge, a half breed about 22 years of age. In company with him and his brother, Joe Hodge, aged 18 years and an Indian boy named Roy Jesus, they started from Murphy's to Sheep Ranch. Near Valentines' place on Indian creek, they concluded to camp for the night, and from Valentines' place procured two five-pound lard buckets of wine, which caused the trouble. It was the boy Jesus, who told of the wine and the killing. He said that after drinking the first bucket of wine, Joe went back for more and while he was gone John hit the woman on the jaw with his fist and that she laid down dead. Dr. Weirich, who performed the autopsy found that the blow had fractured the spinal cord at the base of the brain, causing death. The companion of the dead woman remained on the spot all night, building fires on both sides of the body in a vain attempt to warm it into life. The next day they reported the death. The coroner's jury rendered its verdict in accordance with this testimony. A warrant charging murder was sworn out, and Hodge was arrested and lodged in the jail at Murphys.—Prospect.

The Stay-Satisfactory Kind.

The Photos turned out by LOGAN, Stockton's busiest photographer, are the kind that satisfy you every minute. A thorough knowledge of the business, the best of tools and workmanship, all combine to assure you of best results. Have LOGAN take your photo next time. Prices no higher than elsewhere. Studio at 15 S. San Joaquin St.; Stockton.

Well Known Man Stricken With Paralysis

H. S. Blood, one of the most widely known residents of this county, was stricken with paralysis last Tuesday while crossing the ferry from Oakland to San Francisco. Mr. Blood was here last Monday, and attended the meeting of the stock association and seemed to be in his usual health and good spirits. He left the next day for San Francisco, but was stricken on the way. We have not been able to learn much of the particulars, but in answer to our inquiries by telephone, we were told that at a late hour last night, Thursday the doctors said there was no hope of his recovery.—Prospect.

Prospect Boosts Amador Candidate

We notice by the Amador papers that John R. Huberty, who is the present county clerk and auditor of that county, is again aspirant. It is not often that we take much interest in the local politics of our neighboring counties, especially if the candidates are democrats, but we make an exception in his case because Mr. Huberty is a former San Andreas boy, and we always watch with interest the progress of our Calaveras boys. In the years gone by, Johnnie Huberty was a pupil of the writer, and we know the stuff he is made of. From all that we can learn, he has made a splendid county clerk with a record to be proud of, and that is what we always like to hear of our boys, and even though he be of another political faith, we cannot help but wish him well. This we know will be the sentiment of this vicinity, where he grew to manhood, and is known for his sterling qualities.—Prospect.

We notice in the Amador county newspapers that John R. Huberty is announced as a candidate for the nomination of county clerk of Amador, subject to the decision of the democratic primaries. Mr. Huberty has been the county clerk of Amador county for the current term, and was the chief deputy in the office for a number of years previous to that time. He has been a most accommodating and efficient officer, everybody likes him, and his nomination is equivalent to an election. Mr. Huberty was born and raised in San Andreas, and he has hosts of friends here who are well wishers for his success. He makes frequent visits to his old home, and friends here, and all are glad to meet him and shake his hand, republicans, democrats and independents alike.—Citizen.

Husband and Foster Mother Face Charge

Arkansas City, Kan.—Louis R. Potterton and Mrs. Emma Allen, his foster mother, were arrested here upon a coroner's warrant charging him jointly with having caused the death by poison of Mrs. Frances Kimmell Potterton, wife of Potterton, a bride of a few months, who died suddenly in January.

The warrant charges that Mrs. Potterton came to her death "from poison, arsenic, administered by the said Mrs. Potterton and Mrs. Allen."

Potterton was released upon furnishing a \$10,000 bond to appear for trial. He is 34 years old, and is an engineer on the Santa Fe Railroad.

Mrs. Potterton left real estate valued at \$20,000 and a life insurance policy for \$5,000. The policy, which was made payable to her estate, has not been paid.

Pawns Skeleton

San Jose.—The skeleton of the mother in law of J. D. Scott of Los Angeles, which is an unredeemed pledge in a local pawnshop, was advertised for sale by Nat B. Weinberg of 25 Post street.

Nine months ago, Scott brought the bones of his wife's mother to Weinberg's place and raised \$5. He said that he had carried the skeleton with him for many years.

The woman was bitten by a rattlesnake in San Miguel island in 1869 while in a lonely part of the mountains. The bleached bones were found several months later.

Men's Private Diseases Cured

Pointers for Party Candidates

Qualification of Signers of Nomination Papers.—Signer must be enrolled on great register of 1910 and registered as affiliated with the same party (Republican or Democrat as the case may be) as the candidate whose nomination paper he signs. He must sign both a paper for each office to be voted for, but may sign one paper for every office to be voted for in his district.

Number of Signatures.—Not less than 3 per cent nor more than 10 per cent of the total vote cast for the elector who received the largest vote of his party at the preceding presidential election. Signatures must be secured in at least one fourth of the election precincts in which the candidate is to be voted for.

Verification Deputies.—Each candidate may designate, for the purpose of soliciting signatures, one or more special verification deputies, who qualify by filing with the County Clerk an affidavit setting forth such selection as deputy. The same deputy may be designated by a number of candidates for different offices in the same party.

No candidate is permitted to verify signatures to his own nomination papers.

Time of Filing Papers.—Nomination papers must be filed with the County Clerk at least 30 days prior to August 16, the date of the primary election.

Filing Fees.—Candidates for county offices are required to pay a fee of \$10 each to the County Clerk when nomination papers are filed. No fee required from candidates for township offices.

All necessary papers may be had at Ledger Office, at small cost, also full instructions.

Police Judge Warns a Wayward Girl.

San Francisco.—"What is the end of this life?" asked Irma Gray of police Judge Shortall, who had asked her the same question.

"I will tell you," said the magistrate. "You are very young, and very fair, and you tell me that two months ago you lived in a little interior town. The end is really at the morgue. The road there is sometimes long, sometimes short, the time being wholly governed by circumstances; but the morgue is the last gate, no matter which road you take in this life you have begun."

The girl seemed frightened, and Judge Shortall sent for Mrs. Conlan of the Detention Home. Later the girl, with a happier face, entered the courtroom with Mrs. Conlan and said: "I will do just as this lady says. I am grateful to you and to her."

"Very well, then. This case is dismissed," said the judge.

Murderer Thanks Judge for Death Sentence

Los Angeles.—Ernest Wirth, wife murderer, was apparently grateful when Judge Willis sentenced him to be hanged in San Quentin prison on June 17.

"Thank you, judge!" he exclaimed, "Thank you! It is well."

Wirth murdered his wife, proprietress of a rooming house, a few weeks back by crushing her skull with his boot heels. They had quarreled over money matters and she had threatened suit for divorce. After his arrest and arraignment he asked that he be permitted to plead guilty and that his sentence be death on the gallows.

"I killed my wife because I could not get along with her in this world," he explained in court. "Now I want to join her in the next and begin all over. I want death sentence and I hope that your honor will set at an early date."

Alienists who examined Wirth pronounced him sane.

Wirth's crime was committed, sentence was pronounced, and his hanging will take place on a Friday.

Judge Denies Child's Petition for Divorce

Seattle, Wash.—"The divorce is denied" indignantly explained Judge Robert L. Lindsay of the superior court handing down a decision in the suit of Eva Rogers, a matron of 15, for a divorce from her husband, Percy Rogers, aged 20.

"Hump the idea," ejaculated the judge. "Things are coming to a pretty pass when children come up here and ask for a divorce the same as grown people. Instead of granting a divorce, I recommend that your mothers, both of whom are present, take you home, place you across their respective knees, and get busy with a hairbrush or a shingle."

Eva Rogers went on the stand and tearfully told the judge that her lord and master had a bad habit of finding fault with her pies, that he was "altogether too rough" when he played games with her, and that on one horribly mortifying occasion he had gone so far as to box her ears. Apart from this she had no complaint to make.

When the head of the Rogers family took the stand, he complained that his wife had a disagreeable habit of spending his wages by going to nickelodeons and moving picture shows.

Rail Road Supt. Gives Hoboes Beating

Willows.—Because he saw a gang of hoboes burning railroad ties at their camp, half a mile south of town, H. W. Sheridan, superintendent of the Sacramento division of the Southern Pacific, stopped his special train, went to the camp and ordered the hoboes to get out. One man objected and Sheridan knocked him down. The whole crowd, numbering about fifteen men, then attacked him and he was forced to fight them all single-handed, his train being some distance away. With blows and kicks he eventually routed the entire gang before the members of his train crew reached the spot. The man who appeared to be the leader of the gang was knocked down four times before he quit and took to his heels, followed by the others of the gang.

When Sheridan was a brakeman on trains in Utah and Nevada, he became a terror to hoboes, and he has held to his reputation throughout his career. The Sacramento division has become the most unpleasant of any division of any railroad since he took charge of it.

Harsh physics react, weaken the bowels, cause chronic constipation. Doan's regulators operate easily, tone the stomach, cure constipation. 25c. Ask your druggist for them.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so?

The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N.Y.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

A Wind Guide for Aeronauts—Mysterious Trade Diseases—Etner Surveying for Wireless Telegraphy—Potato Meal—Temperature and Fur—Another Meal for Use—Weight of a Fly in Air—Electric Smelting Furnaces—The Sky's Blue.

A unique sign of the times is Dr. Richard Assmann's guide to the winds of Germany, prepared from the records of the direction and force of the winds kept at 49 well-distributed stations for an average of nearly 21 years. It furnishes the aeronaut with an aid corresponding to the pilot charts of the ocean navigator. For each season and each station, it shows how often, on the average, the wind blows from each of eight directions, and the average frequency of the various degrees of wind between a calm and hurricane. It indicates the best places and times for making ascents, with the direction airships without high power will probably drift. More than this, it suggests the best location for airship sheds and ports, and gives evidence that not only are places near the coast unsuitable, but that many inland stations are uncomfortably stormy. Friedrichshafen, chosen by count Zeppelin for his great sheds, is an unfavorable place for handling the huge airships. The records show that it has an average of 24 stormy days a year, while Celle, has only 22 such days, Berlin and Cassel only 4, and seven other stations less than 10.

The fast-growing list of "industrial diseases" is likely to add two mysterious maladies of South Wales. Tin-plate workers have pains in the chest, difficulty of breathing, and wasting, and are often obliged to go home when the wind blows from certain directions. A flux used is suspected of containing some unknown poison. In the fuel factories, "pitch warts" are very prevalent, at first causing little pain or anxiety, but rapidly developing into cancerous growths. The pitch is believed to contain some harmful substance that was not present ten years ago.

A map to show the ether conductivity for Hertzian waves in different latitudes is a new German idea. Sunshine lessens the conductivity, and a wireless telegraph station of large range in the north would cover only a much smaller radius in the tropics.

The conversion of potatoes into a dry concentrated meal, successfully accomplished by a Prussian process described by Consul T. H. Norton, not only presents loss from decay but reduces the cost of transportation. In Germany potatoes are much used for feeding domestic animals, and the loss from decay amounts to about 11 per cent, equivalent to a value of \$28,500,000 annually. The new process is claimed to be simpler and more effective than numerous earlier ones brought out by an offer of \$6,000 in prizes. The potatoes are washed in a large vat, passed into a mashing machine, pumped into a reservoir, and then fed between two hollow cylinders, of perforated plate covered with linen filtering cloth, the interior of each cylinder being connected with an air exhaust. The pressure of the cylinders and the air suction remove most of the water. The residual mass is taken by a helical conveyor to small cars, which pass through a hydraulic press, removing more liquid, and is then transferred to a revolving drum, heated at one end by steam-pipes and cooled at the other by water. Stirred by prongs in the drum, the dried potato emerges as coarse meal. This has a quarter of the original weight of the tubers and occupies an eighth of the space, it smells and tastes like fresh bread, and analysis shows it to contain 80.69 per cent of carbohydrates, 11.50 of water, 3.73 of protein, 2.06 of ash, 1.71 of fiber, and 1.03 of fat. If desired the meal can be compressed into compact cakes. The residual liquid contains sugar and dissolved salts, and first yielding about 2 per cent of albumen, is used for irrigating farming land.

Remarkable transformation of a cat's fur by temperature has been reported by Prof. A. C. Geddes, of the Dublin Royal College of Surgeons. An all-black cat was accidentally shut up in the refrigerating chamber of a small steamer in Sydney harbor, and was not discovered until about 32 days later, when the ship was off Aden. The cat was hardly recognizable, the fur having become long and thick, changing nearly to white on the back. Brought out into the intense heat of the Red sea, the heavy white coat rapidly fell out, and the black cat was itself again before London was reached.

Titanium chloride reduced with sodium, by the method of Nilson and Peterson, yields pure titanium as a metal resembling polished steel. It is brittle when cold, but at low red heat can be forged like iron. Though very hard, it can be shaped with a file.

A flying fly in an empty dinner pail increased the weight, even though it does not touch the pail, according to the novel discovery reported at Frankfort by Boeninger, a German engineer. An empty cylinder having a cover at top and bottom was suspended from the pan of a balance. When a fly was placed on the wall inside the weight was correspondingly increased, but when the fly left the side of the cylinder, flying into the interior, the balance was not affected. There was no change when either the top lid or the bottom one was removed, the fly's weight being still recorded, although it was flying inside. When both were removed, however, the balance was disturbed, and only the weight of the cylinder was recorded. With the upper lid on and the lower one off, the flying fly near the top of the cylinder was weighed exactly as if suspended from the lid. No clear explanation seems to have been reached, but it is suggested that the air acts like a stretched spring made to vibrate, and that a model illustrating the phenomena could be made.

The success of electric smelting is indicated by its rapid adoption. A German authority counts up 114 electric furnaces that are at work making steel, and his list is incomplete, some important omissions having been pointed out. Of those enumerated, 77 are arc furnaces, 2 generate heat by arc and resistance combined, and 35 are induction furnaces. There are also some pig iron smelting furnaces, Norway and Sweden having 2 or 3. Of the steel furnaces, 7 are at work in England, and a number in America, but the great majority are in France and Germany. Most of the furnaces are of small capacity—1 to 5 tons. They are employed chiefly on high-class steels for special purposes, but a fair proportion are working on ordinary steel, such as structural steel, castings, and railway ties, rails, etc.

The blueness of the sky is attributed by Lord Raleigh to the dispersal of light by small particles, which he supposes to be chiefly by actual molecules of the air, instead of dust, water vapor, etc. He believes that Spring's theory of absorption by chemical matter is disproved by the red—instead of blue—of the setting sun.

DON'T WAIT

Take Advantage of a Jackson Citizen's Experience Before It's Too Late.

When the back begins to ache, Don't wait until backache becomes chronic; Till serious kidney troubles develop; Till urinary troubles destroy night's rest. Profit by a Jackson citizen's experience.

Benjamin F. Gilbert, 91 E. Court street, Jackson, Cal., says: "Backache and other symptoms of kidney complaint annoyed me greatly, and my condition steadily grew worse in spite of all my efforts for relief. It was all that I could do to attend to my work, and at the end of the day, I was so tired that I could not get proper rest. Finally a party who had taken Doan's Kidney Pills, advised me to try them, and I was led to get a box at the City Pharmacy. In three days after beginning the use of this remedy, I felt its beneficial effect, and in a little over a month my trouble was a thing of the past." (Statement given July 3, 1907.)

CONFIRMED PROOF.

On April 5, 1910, when Mr Gilbert was interviewed, he said: "I am glad to verify my former endorsement of Doan's Kidney Pills. Since taking them in 1907, I have been free from pain in my back, and my kidneys have been normal."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Never hesitate about giving Chamberlain's cough remedy to children. It contains no opium or other narcotics and can be given with implicit confidence. As a quick cure for coughs and colds to which children are susceptible, it is unsurpassed. Sold by all dealers.

Deafness Can not be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars or any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best

CASTORIA

For Infants and Children.
The Kind You Have Always Bought

The Call of the Blood

for purification, finds voice in pimples, boils, sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of liver trouble. But Dr. King's New Life pills make rich red blood, give clear skin, rosy cheeks, fine complexion, health. Try them. 25c at Spagnoli's drug store.

BY SPECIAL ARRANGEMENT WITH

THE SAN FRANCISCO BULLETIN

San Francisco's Leading Daily, the AMADOR LEDGER

Is enabled to offer old and new subscribers

Amador Ledger - Weekly, \$2 per year
The Bulletin - - Daily, \$3 per year
FOR \$3.00 Per Year

This is an extraordinary offer, and may be withdrawn at any time, so we would suggest that all old subscribers in arrears pay back accounts that they may take advantage of this special combination sale.

THE BULLETIN is famous from coast to coast for its fight in defense of clean government, and is read by more people daily than the combined circulation of all other San Francisco dailies.

You will appreciate the value of this offer when you consider that any of the other San Francisco papers will cost you \$8 per year.

THE WELSBACH REFLEXOLIER

THE RIDICULE PLAN.

An incident occurred at the last meeting of the board of supervisors that the public ought to know about, although it does not figure as a part of the record. It shows the spirit in which wholesome and proper advice, and coming direct from those who are officially authorized to give it, is received in official circles. The report of the last grand jury contained some sound and timely recommendations, all aimed to secure a better administration of county affairs. Several of the suggestions were not complimentary to the supervisors, but there can be no question that all were in line with the interests of the taxpayers and a sound government. Now it is the business of the supervisors to have the grand jury report read before them. It should have been received as the voice of the sovereign people speaking in tones of command to their servants entrusted for the moment with place and power. Its contents ought to have been discussed with all seriousness, and resolutions passed pledging the board to comply with such recommendations as were aimed to bring about reforms, the urgency of which cannot be questioned. But the document was accorded a totally different reception. It was made the butt of derisive joking, and this temper found vent in a proposition flippantly made by one the members, to the effect that the report "be framed, with the signatures of the supervisors attached thereto, and that it be draped in heavy mourning." Of course the underlying motive of this clumsy effort at jocularity was evidently a desire to belittle and poke fun at the grand jury for daring to do its sworn duty in commenting adversely upon the administration of county affairs when, in the opinion of that body, the circumstances demanded it. The writer was not present when the incident occurred, but the Ledger's representative was there and noted the proceedings. To our mind this affair takes premier rank among the deplorable things in connection with the local government. It means the reign of oligarchy; a contempt of the people under a free government. It says in effect, "we'll do as we please, and no man nor body of men, even though dressed in official robes, shall say us nay." Is it not about time that the voters "sit up and take notice," and act in a way that will put the quietus upon such loftiness. There is absolutely no hope of betterment while this "don't care" policy is allowed to prevail.

On Fishing Trip

A fishing party consisting of William Hess Allen Hamrick and Perry Lepley spent Sunday along the Mokelumne river, and returned with a good supply of trout. The fishing was reported to be fine, and the day's outing was greatly enjoyed.

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drives away the pain at once and cures the complaint quickly. First application gives relief. Sold by all dealers.

Card of Thanks

The undersigned extend their heartfelt thanks to the pallbearers and all kind friends who rendered aid and assistance in any way during the last illness and funeral ceremonies of our beloved husband and father, Sabato Nardini.

Mrs Marina Nardini and family.

Children Cry FOR FLETCHER'S CASTORIA

County Sells Watches

The treasurer this week disposed of a lot of old watches, the effects of deceased persons whose estates had been administered upon, and these articles undisposed of. The law provides that after the lapse of a certain period, the treasurer is empowered to dispose of such effects by auction or otherwise. Some of these watches had been held by the treasurer for over thirty years. The sum of \$23 was realized from the whole outfit. The money goes into the hospital fund.
